It has all the performance and elegance of the Interceptor II, enhanced by even more luxurious seating, handsome vinyl roof and walnut console, distinctive new aluminum alloy cast wheels, ventilated disc brakes, and many other refinements. It is still a limited production car; 18 are built a week, for the whole world, and only 6 of these for the United States. We Met Our Deadline!

This reproduction of the mural adorning the main wall of the lobby entrance to Champlin's Headquarters Building in Fort Worth, is an abstract reproduction of a geological cross section of strata from East Texas. The mural measures 18' in length and 7' in height with each of the eighteen successive colored layers —chipped glass — representing formations composed of sand, shale, limestone or anhydrite. The cross section is the strata of East Texas which extends from the Texas—Louisiana State Line westward to a point somewhat east of Dallas, roughly 145 miles.

Represented on cross section by black patches are three separate oil fields. A large fault, showing how large layers of rock are broken and displaced by earth's movements, is shown on the left side by a heavy black diagonal line. The mural is particularly striking at night when the glowing brilliance of the colored chipped glass contrasts with the darkness.

Lee Sloman

I hope you meet Alice Cooper someday

Harold

To Rudd,
Its been fun having you in some of my classes. I feel like I got to know you a little better in science. Remember when you and Pat were lab partners and me and Wyatt were lab partners. That was a riot! Good luck.

Mary

Rudd,
It's been a real thrill knowing you. It really has. You are a real nice guy and just because you have some weird long ups, shouldn't let you down. Whenever someone puts you down, just think what strange long-uphe has. Oh, by the way good luck with Madeline, it's all over too bad, but I hope you love someone luck with her!

Pat

Its been great
having a locker
above you. Sorry
about the couple of
times my books fell
on you. You are quite
a gentelman. Good
luck,
Susan
Albers

Rudd, Sorry I
wasn't in any
classes with you
except study
hall. Have a good
summer and see
ya soon. Love,
Melanie

Well,
Guess you have more
to do a freshmen again, don't it
cops him. Have a nice summer
and best luck always.
Jane,
Wells

To Rudd, Sudd, Dud
whatever your name is,
you're not really as bad
a guy as people would have
one think.
